PATIENT PHARMACY INFORMATION SHEET

Patient Name _____

DOB _____

Drug Allergies _____

Our office has switched to electronic prescribing, also called "e-prescribing". That means we will send your prescription to your pharmacy via a computer or handheld device. E-prescribe are computer-generated prescriptions created by your healthcare provider and sent directly to your pharmacy. Instead of writing out your prescription on a piece of paper, he or she can type it directly into a desktop computer. Your prescription then travels from our office to the pharmacy's computer.

E-Prescriptions are:

FAST: Your prescription is sent to your pharmacy before you leave our office.

CONVENIENT: There is no need for an extra trip to the pharmacy to drop off your prescription.

SECURE: E-prescriptions are sent through a private, secure network-not over the internet or by e-mail.

Keep in mind, your prescription may not always be ready as soon as you arrive at the pharmacy. We recommend you to call the pharmacy to verify your pick up time.

Pharmacy you would like us to send your prescription to:

Pharmacy Name:	
Address or Cross Street:	
City, State, Zip:	
Phone:	FAX:

I hereby authorize any hospital, physician, medical practitioner, clinic, other medical or medically related facility, pharmacy, insurance company or government agency to disclose or furnish to Dr. Mike E. Calderon, or his representatives, any and all information with respect to any illnesses, drug/alcohol abuse, injury, medical history, consultations, prescriptions, treatments, or benefits and copies of all applicable records that may be requested. A photostatic copy of this authorization is to be considered valid as the original.
